PRTCommunications, LLC ("Applicant") hereby submits this application to the South Carolina Public Service Commission ("the Commission") to amend its Certificate of Public Convenience and Necessity, pursuant to S.C. Code Ann. § 58-9-280 and the Rules and Regulations of the Commission, to permit it to provide local exchange and exchange access service to customers located in certain exchange areas currently served by United Telephone Company of the Carolinas, Inc. (now known as "Embarq"). In support of this application, the following is shown:

4. Applicant is organized as a limited liability company in the State of South Carolina, and has previously been issued a certificate of public convenience and necessity by this Commission in the above-captioned docket. By Order No. 2000-498 issued in this docket, the Commission issued a certificate of public convenience and necessity authorizing Applicant to provide local exchange telecommunications service to customers located in certain areas of the State of South Carolina being served by GTE South, Inc. (now Verizon South, Inc.), and approving flexible regulation for Applicant. The Certificate was granted to Applicant upon a finding by the Commission that the Applicant has the technical, financial, and managerial resources sufficient to provide local exchange telecommunications services within the State of South Carolina, and that the Applicant met all other requirements of certification.

5. Applicant proposes to expand its service to those areas currently being served by Embarq in the portion of Embarq's service area that is contiguous to the area served by Applicant's parent company, Piedmont Rural Telephone Cooperative, Inc. The area for which Applicant seeks certification includes the following exchanges: Ware Shoals, Hodges, Greenwood, Ninety Six, Troy, Saluda, Chappells, Cross Hill, and Mountville. Applicant will provide the same service, under the same terms and conditions, to customers located in the expanded area as it is currently providing to customers in its presently certificated service area. Applicant will offer the service at rates comparable to those of the incumbent LEC serving the area, as reflected on the revised tariff pages attached hereto as Exhibit A.

6. Amending Applicant's certificate to expand its service area will serve the public interest. Applicant is an established competitive local exchange carrier in South Carolina. Provision of service by Applicant in the requested service area will enhance competition in the State of South Carolina by offering additional service options and high service quality to South Carolina telecommunications users.

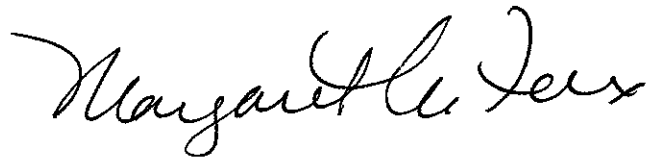

7. As demonstrated in Applicant's prior certification proceeding, and as demonstrated by Applicant's service history and the Annual Reports that are filed with the Commission and the Office of Regulatory Staff by Applicant and its parent company on an annual basis, Applicant has the technical, managerial, and financial resources necessary to provide service in the requested areas.

8. As demonstrated in Applicant's prior certification proceeding, and as demonstrated by Applicant's service history, Applicant will provide services which meet the service standards of the Commission; Applicant's provision of service will not adversely impact the availability of

affordable local exchange service, and will not otherwise adversely impact the public interest; and Applicant will support universally available telephone service at affordable rates.

In view of the foregoing, Applicant respectfully requests that the Public Service Commission of South Carolina amend the certificate of PRTCommunications, LLC to include those areas described in this Application that are currently being served by United Telephone Company of the Carolinas, Inc.

Respectfully submitted,
